OBJECTIVE

React Native Mobile App Developer & Full Stack Engineer building and deploying **production-ready Android & iOS applications**. Specialized in **React Native (CLI, Expo)**, **scalable backend APIs**, **real-time systems**, **AI integrations**, **App Publishing**, and **in-app payments**. Delivered **mobile and full-stack applications**, handling the complete lifecycle from architecture and UI/UX to deployment and store publishing.

EDUCATION

Bachelor of Computer Science, Dawood University of Engineering and Technology 2021 - 2025

- CGPA: 3.32 / 4.00
- Final Year Project: NeuroCare - AI-Powered Mental Health Companion

Developed a mobile application using React Native with a FastAPI backend and PostgreSQL database to detect emotions from facial expressions, voice, and text. Integrated advanced AI models and libraries for multi-modal sentiment analysis and real-time emotional support. ([Check it out!](#))

SKILLS

Technical Skills:

- Languages (JavaScript, TypeScript, Python)
- Frontend (React Native, React, Next.js, HTML, CSS)
- Backend & Databases (Node.js, Express.js, Nest.js, MongoDB, PostgreSQL, Firebase)
- APIs (RESTful APIs, JSON, Axios, Redux, Context API, OpenAI)
- Integrations (Stripe, In-App Purchases, Google Maps, WebSockets)
- Deployment (App Store & Play Store publishing, Digital Ocean)

Soft Skills: Problem Solving, Collaboration, Communication, Adaptability, Teamwork

EXPERIENCE

Mobile App Developer. Sept 2025 - Present
QF Networks Karachi, Pakistan

- **Develop and maintain** production-ready **React Native applications** for **Android & iOS**, contributing to full release cycles on the **Google Play Store and Apple App Store**.
- **Build and integrate** scalable backend services using **NestJS / Node.js**, **PostgreSQL (Prisma)**, along with **Stripe payments**, **in-app purchases (IAP)**, and **Google Maps APIs** for real-time and location-based features.
- **Attend weekly client meetings** as a developer to discuss requirements, provide technical input, and align ongoing development with project goals.

Full Stack Software Engineer. Jan 2024 - June 2025
Dreams Network & Technology Karachi, Pakistan

- Built and deployed applications using **React Native** and **Next.js**, ensuring high performance and SEO optimization for production releases.
- Developed scalable APIs with **Node.js** and **FastAPI**, integrating **OpenAI** models and managing **MongoDB** for efficient data handling.
- Managed full deployment cycles on **Digital Ocean**, including server configuration, SSL implementation, and secure API hosting.

PROJECTS

MOVCA – Car Towing & Relocation Platform: *Skills:* React Native · Nest.js · WebSockets · Stripe · Google Maps

- Developed a **multi-role real-time towing platform** (Driver, Business, Admin) using **React Native, Node.js, WebSockets, Stripe payments**, and **Google Maps** for live location tracking and dispatch management. ([Live App!](#))

195sim – Global esim Marketplace: *Skills:* React Native · Next.js · Google Pay · Stripe · App Store

- Developed a React Native mobile app with a Next.js backend providing travel eSIM access for 105+ countries, integrating Stripe, Apple Pay, and Google Pay for global payments.

Khatta Mobile App: *Skills:* Figma · React Native · Node.js · MongoDB · RESTful APIs · JSON · Deployment

- Built a mobile application from scratch for Al Mustafa Garment to manage customers and suppliers, including WhatsApp-integrated report sending, reducing manual reporting time by 70%. ([Check it out!](#))

Project Guard – AI Construction App : *Skills:* React Native · Nest.js · PostgreSQL · Stripe · IAP · Publish

- Built an AI-powered **React Native** mobile application with **NestJS backend, PostgreSQL (Prisma), Stripe in-app purchases (Android & iOS)**, and **GPT-5–powered automation and reporting**, deployed to production. ([Live App!](#))

Only CNCs – CNC Machining Calculator: *Skills:* React Native · Next.js · Figma · Expo Eas

- Engineered a mobile app for CNC operators to calculate optimized machining settings for pocketing and profiling. Delivered instant calculation of RPM, feed rate, and depth settings for operators, increasing setup efficiency by ~35%. ([Check it out!](#))

INTERNSHIPS

Information Technology Intern

Fauji Fertilizer Company (FFC)

Karachi, Pakistan

- Learned and built 5+ WordPress websites, improving internal workflows and streamlining content management.
- Configured and installed PCs, servers, and VMware environments to support corporate IT infrastructure.
- Worked on Microsoft Active Directory for user and access management across departments.
- Assisted in SAP Procurement Cycle processes (theory and practical), enhancing understanding of enterprise resource planning.

Information Technology Intern

Gandhara Tyre & Rubber Company

Karachi, Pakistan

- Learned and applied SAP ABAP programming, including designing and coding reports (practical implementation) to support enterprise operations.
- Built and tested custom SAP ABAP reports, improving automation and reporting efficiency within the manufacturing process.
- Collaborated with IT teams to troubleshoot, integrate, and enhance internal systems aligned with business workflows.

CERTIFICATIONS

- Certified Full Stack & Mobile App Developer from Jawan Pakistan.
- Cisco Certified Python Developer (PCAP: Programming Essentials in Python) – Cisco Networking Academy & OpenEDG Python Institute. ([Check it out](#))
